

Register your EV with us for a chance to win \$500

22 July 2021

Attention: AEVA Queensland members

Understanding where and how EV's charge today will help us plan for the future. We are fast approaching 7000 electric vehicles in Queensland.

You can help by simply registering your details and go into the prize draw for your chance to win monthly gift cards of \$500.

\$6000 in giveaways in total, and the earlier you register the greater the chance of winning. Given the forthcoming EV potential load on the electricity grid, we want to do our part in maximising the network and broader customer benefits that EV charging can deliver.

Knowing where as many EV's are in Queensland will help us with early planning.

All details can be found on the [Ergon](#) network site or [Energex](#) site

Safe driving!
